

EFKA

motion by innovation

Synchronous operation

USB port

User customized programming

With integrated control for 2 stepping motors

29 outputs, 28 inputs
2 analog inputs
2 digital-analog converters

Sewing drive control with integrated control for two stepping motors in one compact housing

AB425S / DC1500

AB425S / DC1550

Standard Accessory:

- External actuator EB301A

Special Accessories:

- Control panels

- variotouch 900 with graphic touch screen

- variocontrol VB10 for easy switching of functions
- variocontrol VB20 with additional programming of up to 99 patterns and up to 99 seams (depending on memory assignment)
- variocontrol VB50 as VB20 with full-text display

- Pedal with actuator FB302B for standing operation

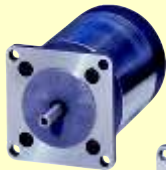

FB302B

HSM001

- Pulse encoder IPG001
- Position sensor HSM001
- Undertable mounting kit
- Light barrier module LSM002
- Stepping motor SM200 or SM250

SM250

SM200

IPG001

LSM002

Functions:

- Universally usable for:
 - Lockstitch** - Pfaff, Dürkopp Adler, Toyota, Brother, Juki, Singer, Refrey, Macofrey
 - Lockstitch (medium to heavier duty)** - Dürkopp Adler, Pfaff, Juki, Brother
 - Chainstitch** - All brands
 - Overlock** - All brands, feed-off-the-arm machines e. g. Yamato
 - Backlatch** - Pegasus, Yamato
 - Stitchlock** - Pegasus, Yamato
- Adapter cords for various sewing machine brands are available*
- Usable for DC1500 and DC1550 motor
- Integrated stepping motor control for 2 stepping motors up to 5 A phase current
- Freely programmable using C200 Compiler
- Synchronous operation of 2 drives
- X/Y functions
- Output signals for use on sewing automats
- Optional control panels variocontrol VB10, VB20, VB50 or variotouch V900
- Serial interface for PC connection
- Flash technology, no EPROM
- USB port for data storage
- Short-circuit proof signal outputs with overload protection
- 29 outputs, 28 inputs, 2 analog inputs and 2 digital-analog converters
- Separate knee switch connection for KN19
- Integrated thread monitor function
- Conventional motor mounting under the sewing table by means of a motor mounting foot (undertable mounting kit)
- Use of V-belts and different transmission ratios are possible
- Operating hours counter
- Machine operating time monitoring with optical or acoustic signal for machine maintenance

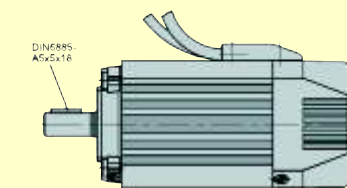

Direct Mounting

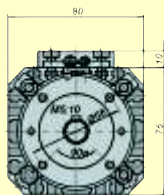

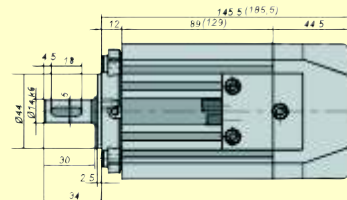

Undertable Mounting

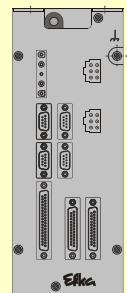

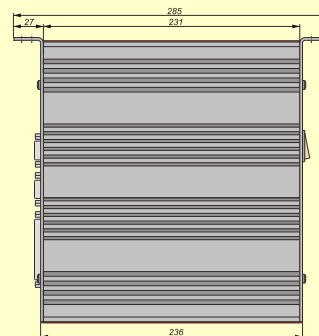

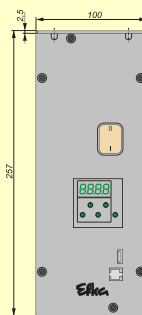

- Mounting kits available for Pegasus EX/EXT, W500/W600, W1500, W2600, M700

DC1500 (DC1550)

Weight of motor:
DC1500 - 2.125 kg
DC1550 - 3.120 kg

Weight of control:
4.3 kg
